Anthony Christopher

SOFTWARE DEVELOPER

Profile

I am a motivated software developer—tackling new challenges and competing is where I thrive. I'm process-oriented with a growth mindset, and creating helpful and intuitive technology is my passion.

Employment History

Software Developer, 14Four

FEBRUARY 2023 — NOVEMBER 2023

- Managing digital projects with companies like Nike, Meta, Gatorade, Dick's, Monster Energy, and more
- Front-End Development
- Developed AI-related projects to increase 14Four brand recognition
- Ensured that projects met technical and aesthetic requirements
- Developed a digital project plan that identified milestones, dependencies and resources needed to successfully complete the project
- Wrote UX / user stories, feature requirements, and use cases to ensure that product features met customer needs

Front End Developer Intern, 14Four

MAY 2022 — AUGUST 2022

- Spearheaded the end-to-end development and deployment of diverse websites and web advertisements, showcasing adeptness in Nuxt, React, GSAP and JavaScript
- Produced captivating and dynamic web banner ads, leveraging animation techniques to enhance engagement and user experience
- Contributed substantially to the development of websites for prominent industry giants such as Nike, Gatorade, and Rock-star, showcasing expertise and adaptability in meeting corporate standards and requirements

Software Engineer Intern, Drip7

JANUARY 2022 — MAY 2022

- Conducted comprehensive testing on the web application, meticulously identifying bugs and implementing improvements to elevate overall functionality and user experience
- Played a pivotal role in liaising with clients to gather and comprehend project specifications, ensuring alignment between client expectations and development objectives
- Executed comprehensive quality assurance measures, ensuring high standards of functionality, usability, and performance within the web application

Fullstack Developer, Whitworth University Dornsife, Spokane

MAY 2021 — DECEMBER 2022

- Led the end-to-end development of a comprehensive website for a local nonprofit organization, demonstrating expertise in React, JavaScript, SQL, and Django to deliver a robust digital platform
- Produced compelling and visually engaging graphics, contributing to the brand identity and aesthetic appeal of the company's digital presence, and enhancing overall user experience and engagement

Education

Computer Science & Business, Whitworth University, Spokane
